A considered scalp-care concept.

Packaging approved by the user. Research, concepts and exploratory execution packages follow the selected cream-and-cobalt identity.

STRANDVALE

Amber glass. Black dropper. Cream paper. A cobalt spine.

6 concepts / 18 feed creatives / 18 Story adaptations
All five awareness levels
Different premises, formats, cameras and compositions

30 mL is a packaging assumption. $29 first order includes free US shipping and no subscription; tax extra. This is a fictional proposed offer. Formula, directions, classification and product proof remain unverified.

Specific friction. Specific relevance.

Public category research informs hypotheses; it does not establish STRANDVALE efficacy or represent all US shoppers.

P01 / First-time explorer	Needs to understand the category before another purchase.	C01 / Unaware
P02 / Residue-sensitive switcher	Finish and wash-day compatibility can make a new step feel costly.	C02 / Problem aware + C05 / Solution aware
P03 / Evidence comparer	Ingredient headlines alone do not answer what was tested.	C03 / Solution aware
P04 / Routine evaluator	Wants to understand the product and application commitment.	C04 / Product aware
P06 / Cost evaluator	Needs a clear price, quantity and purchase commitment.	C06 / Most aware

Research anchors: AAD distinguishes shedding from loss (S01); FDA intended-use guidance limits unsupported hair-growth positioning (S02); official competitor pages map the category (S03–S05); public discussions surface texture, routine and cost questions (S06–S08). Full linked sources are in the HTML and research folder.

The scalp chapter

P01 / Curiosity / category understanding / Top funnel

C01-V1 / Candid routine photograph

Hair care has a scalp chapter.

Explore scalp care / Learn More

C01-V2 / Editorial routine diagram

A routine starts with better questions.

Explore scalp care / Learn More

C01-V3 / Paper collage explainer

Before another bottle, understand the category.

Explore scalp care / Learn More

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

The routine friction

P02 / Problem agitation / routine compatibility / Top funnel

C02-V1 / Native bathroom moment

The finish matters. So does wash day.

Explore the routine / Learn More

C02-V2 / Sculptural weekly-planner poster

A new step should fit the routine.

Explore the routine / Learn More

C02-V3 / Candid getting-ready photograph

If residue decides it, start with questions.

Explore the routine / Learn More

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

Make the proof readable

P03 / Evidence literacy / comparison / Mid funnel

C03-V1 / Three-folder decision framework

One claim. What kind of evidence?

Read the checklist / Learn More

C03-V2 / Annotated label editorial

Read beyond the ingredient headline.

Read the checklist / Learn More

C03-V3 / Newspaper-style question sheet

If proof matters, ask what changed.

Read the checklist / Learn More

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

Know the selected bottle

P04 / Product detail / inspection / Mid funnel

C04-V1 / Product-anatomy poster

Meet the dropper. Read the details.

Explore the product / Learn More

C04-V2 / Candid overhead unboxing

A closer look before the first drop.

Explore the product / Learn More

C04-V3 / Macro material study

Know the bottle before the routine.

Explore the product / Learn More

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

What the category asks

P02 / Sourced social listening / objection mirror / Mid funnel

C05-V1 / Sourced question-card editorial

“Does the serum feel greasy?”

Explore the questions / Learn More

C05-V2 / Lifestyle paper zine

Scalp care is a styling decision, too.

Explore the questions / Learn More

C05-V3 / Three-question conversation graphic

The routine question deserves an answer.

Explore the questions / Learn More

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

The first-bottle invitation

P06 / Introductory value / purchase control / Bottom funnel

C06-V1 / Value-led Swiss typographic poster

Your first bottle. A better way to begin.

Claim your first bottle / Shop Now

C06-V2 / Tactile first-order unboxing

Start with one. Stay in control.

Get started for $29 / Shop Now

C06-V3 / Dark luxury editorial offer

Make room for scalp care.

Shop your first bottle / Shop Now

Exploratory execution packages: scene, visual premise, layout and copy change together. Persona, underlying angle, offer and awareness role remain consistent; this does not isolate a hook effect.

Five placements. One recognizable product.

Test a buyer question, then isolate the cause.

No live spend, ad account, purchase data or forecast. The HTML contains editable economics and diagnostic scenarios.

01 / Explore

At a $3,000 sample monthly envelope: 80% exploration, up to 5% eligible retargeting, 15%+ diagnostic reserve. At most two concept sets at once; eligibility and actual loss limits govern deployment.

02 / Compare

Use the three executions to explore a concept. Unequal platform delivery and multiple changing variables prevent causal attribution to the headline. Compare relevant downstream actions, not clicks alone.

03 / Isolate

After sufficient signal, hold the strongest scene, format, offer and audience constant. Compare candidate hooks in a controlled follow-up. Do not call a draft a winner.

04 / Reconcile

Sample math: $29 net AOV minus $9 product, $5 fulfillment/shipping and $2 fees/returns = $13 pre-ad contribution. Retaining $4 leaves $9 allowable first-order CAC; break-even paid ROAS is 2.23×. Assumptions, not business facts.

Ready to review. Product proof still matters.

The selected packaging and complete artwork are available in the HTML, downloadable masters, Story adaptations and production specifications.

Visual craft

Each concept has three execution packages. Diagram, collage, candid routine, planner poster, paper folders, annotated pack, newspaper, unboxing, macro, social-listening card and value-poster, tactile unboxing and dark editorial approaches vary the dominant visual.

Claim discipline

No invented customer proof, clinical result, regrowth promise, finish guarantee, dosage, supply duration or endorsement. A sourced category question is labeled as such. The $29 first-order/free-US-shipping offer is a fictional proposal, not live.

Delivery limits

Creative diversity can be tested, but cannot guarantee separate retrieval, grouping, reach or lower costs. Meta’s public Andromeda article describes personalized retrieval, not a universal public similarity-score threshold.

Before a real launch

Verify formula, safety, intended use, directions, label requirements, actual sensory/efficacy evidence, commercial terms, landing page and event accuracy. This fictional campaign has no measured performance.
